

C-Channels

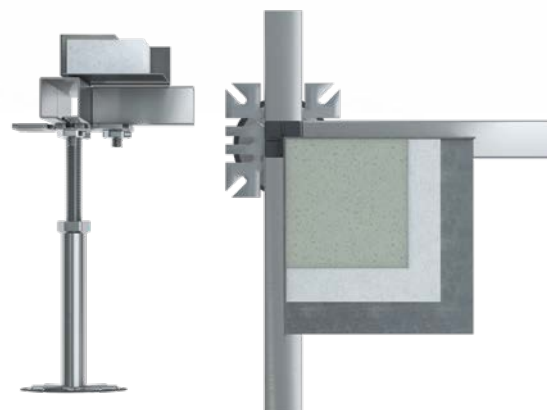

Durable Steel Profiles for Versatile Applications

Our C-channels made from galvanized steel provide a reliable solution for a wide range of indoor and outdoor applications. They stand out for their high stability, durability, and corrosion resistance. Manufactured to the highest industrial standards, our cold-formed C-channels ensure consistent quality and precise dimensions.

Product Specifications

Profile Type	Cold-formed C-channels
Material	Steel according to DIN EN 10162:2003
Steel Grade	DX51D+Z according to DIN EN 10346:2015 DIN EN 10143:2006
Surface Treatment	Hot-dip galvanized according to DIN EN 10346:2015, Tables 12 & 13 SIZ CM 095 (Edition 2013), Tables 11 & 12
Applications	Construction, substructures, support systems, fastening solutions
Key Features	High dimensional accuracy Excellent formability Effective corrosion protection Lightweight with high load-bearing capacity

Tailor-Made Solutions

Upon request, we manufacture our C-channels in various lengths, thicknesses, and configurations – precisely tailored to your requirements. Get in touch with us!
